2. Description of Service

AiAiAi Automation provides an online platform where users input specific details regarding their business operations into a web form. The Service utilizes Google's Gemini API (an Artificial Intelligence Large Language Model) to analyze this input and generate an automated "Automation Potential Audit Report" (the "Report").

3.2 Not Professional Advice: The Report is provided for **informational and brainstorming purposes only**. It does not constitute professional business consulting, legal, financial, or

technical advice. You should not make critical business decisions (including firing staff, investing capital, or changing technologies) based solely on the Report.

3.3 Human Review: You acknowledge that the Report has not been reviewed or verified by human experts. It is your responsibility to verify any recommendations made by the AI before implementation.

4. User Responsibilities

You grant us a worldwide, non-exclusive, royalty-free license to use, reproduce, and process your input solely for the purpose of generating the Report. **6.2 The Report:** Upon generation, we grant you a non-exclusive, perpetual, worldwide license to use, copy, and modify the Report for your internal business purposes. **6.3 Our IP:** The design of the Service, the prompting engineering, the source code, and the branding remain the exclusive property of AiAiAi Automation.
